

Wyoming Line - North

Owner

MTDOT

Location

Powder River County near Biddle, MT

Contract Value

\$8,747,860.20

Company Role

Prime Contractor

Project Description

On September 18, 2012 the Montana Department of Transportation awarded Oftedal Construction, Inc. the Wyoming Line-North project. Oftedal crews were able to perform a significant amount of the project prior to the winter shut down. Bid items included over 420,000 cy of excavation, with gravel, plant mix surfacing, drainage, signing & pavement marking among the items to complete. Project Manager Cam Lundby and Superintendent Jim Wilcox were able to utilize their crews to maximum effect, reducing the time spent on the project in the 2013 season. This project had no lost time accidents in 2012.
